डेंगू, मलेरिया एवं चिकनगुन्या से बचाव हेतु इधर-उधर पानी न इकट्ठा न होने दें और पानी के बर्तन ढंक कर रखें।

DIRECTIONS FOR BIO MEDICAL WASTE MANAGEMENT

PROPER BIO MEDICAL WASTE MANAGEMENT IS THE MOST IMPORTANT RESPONSIBILITY OF ALL INDIVIDUALS/
HOSPITALS/HEALTH CARE FACILITIES

(BIO-MEDICAL WASTE INCLUDES- Human/ Animal Tissues, Organ, Body Parts; Laboratory Waste, Needles, Syringes, Catheters, IV- Sets, Expired/ Discarded Medicines, Used Dressings/ Cotton Etc) and it should be segregated in colour coded containers.

- The Bio Medical Waste Management Rules 2016 place stringent obligations on all who generate, segregate, collect, package, store, transport, treat and dispose of such waste.
- Bio medical Waste generated regardless of authorization must be dealt in accordance with BMW Management Rules 2016.
- Any violation can invite heavy fines, imprisonment, and even closure of incorrigible healthcare facilities.
- Bio medical waste should not be stored after 48 hrs except sharp container.
- If there are hospitals in residential area/home treatment RWAs should keep a watch making sure that no bio medical waste is littered around the hospital or colony.
- There should be no throwing of bio medical waste, into the river, on the river banks and any other places.

DIRECTORATE GENERAL OF HEALTH SERVICES

Prevention from Dengue is Easy

Dengue mosquito grows in
clean and stagnant water.
So don't let the water stand
near home, office and school.

- Dengue mosquito bite during day time.
- Let your water tank to be covered, clean water cooler once in a week.
- Save yourself from mosquito bite, wear full sleeve cloths.
- Use mosquito repellents like mosquito coils, mosquito repellent cream and mosquito net.
